

NEW

PULSE ENGINE HOURMETER PET-3000DXR

- PET-3000DXR is a must-have item for your gasoline engines. It tells you when maintenance is needed in terms of time.
- PET-3000DXR can be used in all types of gasoline engines. (※ except direct ignition engines)
- No need for electrical wiring and easy to install.
- PET-3000DXR incorporates a long-life battery. (20,000 hours)

PET-3000DXR detects signal when gasoline engine is activated and displays cumulative operation time of engine.

FEATURE

- PET-3000DXR can memorize and display operation time in two ways, TEMPORARY and TOTAL.
- PET-3000DXR has a function that tells you when oil exchange has to be done every 100 hours (OIL display).

OIL CHANGE TIME

95:00 ~ 99:59

95:00 blink

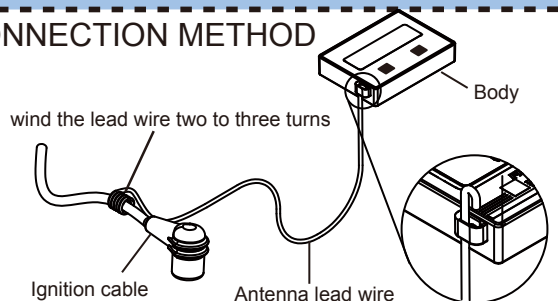

100:00 ~ 104:59

OIL → 100:00
Alternately lighting
